MONDAY, APRIL 3. 1739.

1177.

Yesterday arriv'd a Mail from Flanders, and one from France.

Rome, March 8. O. S.

HE Canon Orliconi (late one of the Chiefs of the Corsican Rebels) is gone thro' this City with a Grant in his Pocket, appointing him one of the Chaplains to the King of the Two Sicilies.

*Savona, March 1.* The last Letters from Genoa say, the Government is wholly taken up at present in Ways and Means to raise the Sums they are under Engagement to furnish to the French for the Reduction of Corsica: And as all the Parish Priests are order'd to give in the Names and Titles of those that used to be upon the List for the Easter-Offerings, it seems as if a Tax was intended; which will certainly occasion very great Murmurings, the People in general, both in the Towns and Country, being already very much burden'd, and not in a Humour to contribute to the Charge of the present War. In late Wars it has been observed, that very many of the Citizens tax'd themselves for the Service of their Country; but now the Case is quite different, for the Rich are they that are most against the War, and they declare openly, that the People, who may thank themselves for the War, ought to bear the whole Expence of it.

*Paris, March 28. O. S.* Letters of the 14th from Genoa say, they have Advice of the 3d from Bastia, that the French Forces continue their Attack of the important Post of Montemaggiore, and that 5000 of the Rebels were advanc'd that Way to support the Garrison.

Seven magnificent Coaches are making here by Order of the King of Spain, for the Infante Don Philip. A Berlin returning from Versailles one Night last Week, fell into the River, by which four Persons were drown'd, and a fifth narrowly escap'd by swimming.

The last Dutch Mail brought the following Account of the Debate in the Diet at Stockholm relating to the five deposed Members.

On the 14th of March the Memorial given in by the Secret Committee, shewing their Reasons for deposing the five Counts, was read in the Assembly of the Deputies of the Nobility, who are a Part of the General Diet. Upon this Occasion, the Count de Tessin, who is Marshal or Speaker of the Diet, desired such Members as were related to those Counts to withdraw, because Family Concerns, or other Reasons of a private Nature, incapacitated them from debating, or giving their Votes in the Affair then before the Diet. After they were withdrawn, he made a very fine Speech, in which he exhorted the Diet to debate this Affair without any Rancour, and with Moderation; and to consider, that the more important it was, it ought to be canvass'd with the more Regard to Equity, and with the stricter Conformity to the Laws and Ordinances of the Realm.

Then a Memorial was read, which the five Senators had presented to the Diet, entitled their most humble Representation, which was in Substance as follows:

The five Senators, whose Names are hereunto subscribed, could not but be extremely concern'd when they heard that the Secret Committee of the General Diet reported to the States, that after having consulted the Registers of the Kingdom with regard to Foreign Affairs, they had found such Mistakes in their Conduct and their Councils, as prevented the States from confiding in them any longer; and that the Committee had for this Reason resolv'd to depose them. The Underwritten do not propose to engage in any Dispute upon this Matter; they only desire to make it known that they protest, before God and before the States of the Kingdom, that they always made it their invariable Maxim to regulate their Conduct by the Fundamental Laws of the Realm, and to conform their Opinions thereto, as they were oblig'd both by their Duty and their Oath; and that in every

thing relating to Foreign Affairs, it has been their sole Aim to preserve Peace and good Understanding with the neighbouring Powers, &c.

Signed BUNDE, BARCK, BIELKE, HAADT, and GRABTZ.

After this was read, several of the Members gave in Memorials, some in favour of those five Senators, and others against them; whereupon there arose great Debates. Some of the Members expressed their Apprehension of the Clamour which might be occasion'd by the Expulsion of five Senators of the principal Families of the Kingdom. Others insisted upon entering into a Debate whether the Resolution of the Secret Committee should be confirmed, or whether those Gentlemen should be continued in the Exercise of their Employments, by the mere Grace and Favour of the Diet. It was carried in the Majority, That the Reasons urged by the Secret Committee against those Senators were sufficiently proved, so that no more Confidence ought to be reposed in them: That as to their being deposed from their Employments, it was an Affair decided by the fundamental Laws of the Realm, and by the Resolution which the Secret Committee had taken, by Virtue of the Power with which they were invested: That therefore the Point was settled, and could not admit of any more Debate, &c.

After this the Marshal moved for the Question, whether the Diet should enter into a Debate upon the Motion which had been made to allow the deposed Senators a Pension. It was settled, that such as voted for the Debate should write Yes upon the Roll, and that they who were of a contrary Opinion should write No. It was carried by 219 Votes against 187, that the Affair should be debated; and then they adjourned to the Day following, when, after great Debates about the Pensions, it was left to the Decision of the Secret Committee; and, after the intire Confirmation of the Resolution by them taken, at the same time, it was decided, that the Affair was at an End, and should be canvass'd in the Diet no more.

At the same Time a solemn Deputation was appointed of 24 of the Members, who went to give Notice of the Degradation of the five Senators above-mentioned to all the Orders of the Kingdom. Those Gentlemen are retir'd since to their Country Seats. The Matters alleg'd against them are certainly very important, but are as yet a Secret to the Publick.

*Waldbut, near the Black Forest, March 16. O. S.* The Peasants of the County of Haverstein being informed that the Deputies whom they sent to Vienna to acquaint the Emperor with their Motives for opposing their new Lord were put under an Arrest, sent two other Deputies to the Imperial Commission to let them know, that they were resolv'd to persist in their Opposition by all manner of Means, till the Return of those Deputies whom the Court of Vienna had caused to be arrested. The Imperial Commission was so provok'd at the Insolence of those Peasants, that they caused the said Deputies to be caned, and then dismissed them. This has so much exasperated the Malecontents, that they have resolv'd to wait the last Extremity rather than to submit; and they have carried off several other Peasants, who are not of their Party, to serve them for Hostages: In short, all this Part of the Country is in the utmost Confusion.

From the London Gazette.

*Leghorn, March 20.* On the 16th Instant their Royal Highnesses the Great Duke and Duchess of Tuscany set out from hence for Pisa, on their Return to Florence. The same Day came into this Port his Britannick Majesty's Ship the Dragon, Capt. Bârdet, Commander. The Imperial Regiment of Pallavicini is ordered to march by the 2d Instant through the Lunigiana and Lombardy for Hungary.

*Vienne, March 21.* Marshal Wallis is not yet set out, being in daily Conferences with the Ministers; but it is assur'd that he will depart in a very few Days, which is thought the more necessary, as this Court has received several Advices from the Frontiers, of the great and early Preparations which the

Turks are making for this Campaign; and even the Vizier is reported to be actually at Nissa. Baron Eck arrived here Yesterday from Saxony: The Recruits for the Saxon Troops, together with the new Tents and new Mountures, will be upon the the Frontiers of Silesia the latter End of this Month. It is said, that half of the Million of Rubles offered by the Caarina, and accepted here, will be immediately paid, and that the other Half will be paid also in three or four Months. An Accident has happened lately at a Place call'd Zelnock upon the River Teiss, where Count Neuperg had got together a Magazine of Corn and other Provisions, which have been intirely destroyed by a Fire that broke out through Negligence. The two Bavarian Battalions which are at Esbeck, are said to have lost already 300 Men of the Plague. The Imperial Troops which are in Garison there are likewise infected, as well as the Inhabitants of the Place.

*Florence, March 22.* On the 17th, the Great Duke, and Duchess, and Prince Charles of Lorraine, returned hither from Pisa. His Royal Highness has made a Promotion of Officers out of his Life Guards to fill the vacant Posts in the Lorraine and Tuscan Regiments of Foot Guards. Preparations are making here for the Journey of their Royal Highnesses and Prince Charles, on their Return to Vienna; and it is thought they will set out by the 20th of April. They will go by Sea from Leghona to Genoa, thence by Milan, Turin, and Schaffhausen to Vienna. This Route has been settled to avoid passing through the Venetian Dominions. Orders have been given to purchase 50 Mules for his Royal Highness's Service for the Campaign in Hungary.

*Vienna, March 26.* Marshal Wallis's Departure has indeed been delayed hitherto, but he will at his Arrival on or about the 14th of next Month, find drawn together a considerable Body of Troops between Peterwaradin and Belgrade; while Count Neuperg will at the same time be at the Head of another Body of Troops between Arath upon the Maros, and Segedin upon the Teiss. In order to form those two separate Bodies, each Regiment of Cavalry is to furnish two Squadrons, and those of the Infantry 200 Men out of each Battalion. It is intended by that Disposition, to be in a Condition to oppose any early Undertakings of the Turks till the whole Army can be assembled, which it is hoped will be about the 14th of May, for all the Regiments have Orders to leave their Winter Quarters the Beginning of April. Letters from Transylvania say, that the Plague diminishes every Day in that Province; that the Turks have made no Motion hitherto in that Neighbourhood; that they have not above 600 Spahis at Virajova, 6000 Foot and 2000 Spahis at Widdin, 3000 Foot at Orsova, and a very small Garison at Meadia.

To Persons of either Sex  
Afflicted with any Species of the PALSY, or  
other NERVOUS DECAYS.

### NEVER were NERVOUS DISEASES,

PALSIES, and PARALYTICK DISORDERS so frequent as  
of late they have been, nor have the usual Remedies been  
found adequate to those pertinacious Distempers: This oc-  
casioned a Physician, who employ'd his Thoughts much con-  
cerning them, to adapt a Medicine, a *Sovereign Elixir*, pecu-  
liar to, and effectual for, the Palsy, and all other nervous  
Complaints now reigning, which after he had experienced on  
vast Numbers of Persons of both Sexes, and always with  
surprising Success, even so as infallibly to cure by it the  
Palsy, and all Paralytick Effects and Nervous Disorders,  
he permitted it to be made publick for a general Good, that  
to those labouring under these miserable Ailments, might  
know where to meet with a safe and most certain Cure,  
which it accomplishes in so short a Time, and with such Ease  
and Pleasure (a few Drops of it being a Dose, highly agree-  
able to the Palate, and comforting to the Stomach and Bowels)  
as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its  
prodigious Efficacy to every one, and the Patients soon find  
all Numbness, Deadness, and Shaking, or Resolution of the  
Nerves, as well as all convulsive, cramp-like, or painful  
Contractions of them, vanish and return no more; and this,  
though these Diseases have been of many Years standing, and  
whether occasioned by long Illness, fast Living, hard Drink-  
ing, or any other Cause; for it performs all that can be  
wish'd for in Nervous Cases, creates an Appetite, expels Wind,  
rectifies the Digestion, occasions laudable Chyle, attenuates  
the Blood and Juices, causes a free and regular Circulation of  
'em thro' the Capillary Vessels, revives and increases the  
Spirits, warms, comforts, strengthens, and replenishes the  
Brain and whole Nervous System, hence the Sinews, Tendons,  
Ligaments, and all the enfeebled Parts are invigorated, and  
the Limbs restored to their pristine Steadiness and Strength, and  
the Palsy and all Paralytick Disorders and Nervous Decays  
suddenly cured by it, to the Admiration of the Patients  
themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be  
sold only at Mrs. Holt's, at the Cross-Keys and Star in  
Cornhill, near Stock's Market, at 3s. 6d. a Bottle, with  
printed Directions.
